

# ANGELS SANTE WELCOMES INITs AS A NEW CORPORATE MEMBER

**June 2025** – **Angels Santé**, France's leading network of healthcare-focused business angels, is pleased to welcome **INITs** as a new Corporate Member. This collaboration marks an additional step forward in fostering innovation and collaboration within the biotech ecosystem.

## A Strategic Alliance to Accelerate Biotech Innovation

At the heart of this alliance lies a shared commitment to **collaborative innovation**. **INITs** will bring a wealth of experience in pharmaceutical development across the Angels Santé Biotech portfolio helping them anticipate and navigate key development challenges — ranging from CMC and Regulatory strategy to Clinical supply, Quality Assurance, and Audits.

Founded in 2013 and headquartered in Montpellier, **INITs** operates in France and internationally. The company is also developing a **disruptive SMO (Shared Manufacturing Organization)** concept, offering biotech companies a unique shared bioproduction facility. This unit will allow companies to manufacture their Drug Substances within a fully supervised space, supported by **INITs'** expertise in Regulatory, Quality assurance, Quality control, Analytics, and Supply chain management.

*"We are delighted to welcome **INITs** as a Corporate Member of Angels Santé. Their expertise will be a great asset for our biotech start-ups, saving valuable time and ensuring robust development strategies. We are particularly excited about the upcoming launch of the **INITs SMO**," said **Eric Garnier, President of Angels Santé**.*

*"Joining **Angels Santé** is a meaningful step for us. We look forward to actively contributing to this vibrant ecosystem and helping early-stage biotechs bring their innovations to patients faster and more efficiently," added **Amel Hadri, CEO of INITs**.*

## About INITs

**INITs** is an innovative consulting company dedicated to supporting biotech companies in their pharmaceutical development journey.

Since 2013, we've supported more than 250 clients across Europe and internationally.

**INITs** operates through two divisions:

- **INITs Consulting:** We provide end-to-end support across all pharmaceutical development phases — in CMC, Regulatory strategy, Clinical supply, Quality Assurance, and Audits.

- **INITS SMO:** Currently in development and operational in Q2 2026, INITS SMO is a shared bioproduction facility that offers biotech companies a unique environment for Drug Substance manufacturing, with full support from INITS (Regulatory, QA, QC, Analytical, Supply Chain). For Drug Product manufacturing, INITS will act as a traditional CDMO, handling Fill & finish, Packaging, and product release operations.
